ACUTE POSTOPERATIVE PAIN (APOP)
Patient Record Form

The application accepts up to 8 numbers as patient identification. Each hospital should identify a coding system, e.g UR No., combination of audit date and patient number – YYMM#### to identify patients. Record the patient's name and medical record number (MRN) of patients meeting inclusion criteria in Name and MRN columns below. Assign a patient number to each eligible patient. Enter the individual "patient number" on the data collection form for each patient.

Study ID	Name	MRN	Date of Surgery	Date of interview	Date of Discharge
Eg. 030901	*Ralph Smith*	*123456*	*11/2/2009*	*12/2/2009*	*14/2/2009*
