

WEDNESDAY 30 MAY

9:45	Choosing Wisely Australia National Meeting
16:00–18:30	Welcome reception and registration for NMS 2018 Foyer, National Convention Centre Canberra, ground floor

DAY 1: THURSDAY 31 MAY

7:30	Registration Foyer, ground floor
------	---

SESSION A

Prepare to be inspired and immersed in the symposium themes – how systems are evolving, the reimagining of policies and clinical innovation. Explore opportunities, challenges and the world of change, here and on the horizon.

Ballroom	
8:30	Official opening of NMS 2018 Virginia Haussegger AM , Conference MC Welcome to country Wally Bell , on behalf of the Nggunawal people Opening address Dr Lynn Weekes AM , Chief Executive Officer, NPS MedicineWise
9:00	Keynote address: Reshaping healthcare and harnessing the potential - 100 Professor Keith McNeil , Assistant Deputy Director-General and Chief Clinical Information Officer, Queensland Health
9:45	Panel discussion: Perspectives from the coalface – shifting from population to personal healthcare Panellists: Leanne Wells , Chief Executive Officer, Consumers Health Forum of Australia Dr Matthew Anstey , Intensive care physician, Sir Charles Gairdner Hospital; Chair, Choosing Wisely Advisory Group Professor Michael Dooley , Director of Pharmacy at Alfred Health and Professor of Clinical Pharmacy, Centre for Medicine Use and Safety, Monash University, President, Society of Hospital Pharmacists Association (SHPA) Facilitated by Virginia Haussegger AM
10:30	Morning tea Foyer, ground floor

CONCURRENT SESSION 1

Experience an exciting showcase of work from across Australia and beyond. Gain insights into cutting edge research, novel problem-solving, improving utilisation and decision making, and ways the sector navigates this fast changing landscape. Session includes streams on digital data and AMR.

11:00	1.1 Pitch presentations	1.2 Lightning talks – Evolving systems and reimagining policies	1.3 Panel discussion	1.4 Digital data stream	1.5 Antimicrobial resistance (AMR) stream
	Fitzroy room	Torrens room	Derwent room	Swan room	Murray room
	<p>Development of consumer information tools on the benefits and risks of new cancer medicines - 101 Dr Agnes Vitry, University of South Australia</p> <p>e-MEDs reporting for quality use of medicines - 102 Katie Hargreaves, South Eastern Sydney Local Health District</p> <p>Methotrexate information sources and perception in patients with rheumatoid arthritis - 103 Professor Debra Rowett, Drug and Therapeutics Information Service, University of Adelaide</p> <p>VicTAG Chemotherapy Audit Toolkit: facilitating health services to prevent errors in the future - 104 Shaun O'Connor, VicTAG</p>	<p>The new national Primary Health Network Immunisation Support Program (PHN-ISP) - 105 Aine Heaney, NPS MedicineWise</p> <p>Physician perspectives on post-market data collection and market withdrawal/disinvestment as components of accelerated access to medicines - 106 Jessica Pace, University of Sydney</p> <p>Safety, quality and savings: benefits of implementing a state-wide medicines formulary - 107 Lisa Robertson, SA Pharmacy</p> <p>Stakeholder roles in managing essential medicine shortages - 108 Mai Duong, Royal North Shore Hospital</p> <p>Reforms to advertising of medicines containing Schedule 3 substances - 109 Dr Rebecca Doolan, University of Sydney</p> <p>Evaluation of the implementation of the Ohio Emergency and Acute Care Facility Opioids Prescribing Guidelines - 110 Dr Jonathan Penm, University of Sydney</p> <p>Antimicrobial drugs and the Special Access Scheme: an anomaly or a marker of a system in crisis - 111 Nadine Hillock, University of Adelaide</p> <p>An economic evaluation framework to inform the scheduling of medicines in Australia - 112 Dr Bonny Parkinson, Macquarie University Centre for the Health Economy</p> <p>Finding solutions for support workers in medication handling in group homes - 113 Jared Brown, NSW Poisons Information Centre</p>	<p>Post-market safety communications and emerging risks of medicines – are we getting it right? - 114</p> <p>Panellists: Dr Barbara Mintzes, University of British Columbia, University of Sydney Lucy Perry, University of Sydney Alice Bhasale, University of Sydney</p> <p>Facilitated by Dr Danijela Gnjidic, University of Sydney</p>	<p>MedicineInsight - 115 Rachel Hayhurst, NPS MedicineWise</p> <p>Lost in translation: redefining data for optimal patient-centred care - 116 Allan Nash, Grace Wong, NPS MedicineWise</p> <p>Digital coaching – using avatars to support self-management of type 2 diabetes - 117 Ornella Care, Bupa</p> <p>The extended technical and data applications of the MedicineWise app – beyond a consumer medication management app - 118 Kishen Kaurah, NPS MedicineWise</p> <p>Evaluating digital health interventions - 119 Dr Andre Andrade, University of South Australia</p>	<p>Panel discussion: Understanding the big picture and foundations for change</p> <p>Panellists: Department of Health Australian Commission on Safety and Quality in Health Care Aine Heaney, NPS MedicineWise Professor Health Kelly, Therapeutic Guidelines</p> <p>A/Prof Kirsty Busing, National Centre for Antimicrobial Stewardship</p> <p>Professor Mieke van Driel, University of Queensland</p> <p>Stream partner:</p>  

12:30	<p>Lunch</p> <p>Evolving systems poster session (12:45-13:15)</p> <p>Foyer, ground floor</p> <p>DVA workshop – Veterans’ MATES: engaging veterans and health professionals to improve health outcomes for veterans - 120 (12:45-13:15) Dr Anna Moffat, Evaluation Leader, Veterans’ MATES, Natalie Blacker, Development Coordinator, Veterans’ MATES, Dr Lisa Kalisch Ellett, Senior Research Fellow, Veterans’ MATES</p> <p>Murray room</p>
-------	--

SESSION B

Take a deep dive into the subtheme of reimagining policies. There are lots of questions, but nowhere near as many answers. How are regulators and policy makers responding to new and emerging health technologies, and balancing safety, timely access, cost effectiveness with stakeholder and community expectations? This is sure to be a challenging and insightful conversation.

Ballroom	
13:30	<p>Keynote address: Adaptive regulatory pathways - 121 Dr Hans-Georg Eichler, Senior Medical Officer, European Medicines Agency</p>
14:10	<p>Panel discussion: Australian perspectives on innovations in policy and health technology assessment</p> <p>Panellists: Adjunct Professor John Skerritt, Deputy Secretary for Health Products Regulation, Department of Health Professor Andrew Wilson, Chair, Pharmaceutical Benefits Advisory Committee Jo Watson, Deputy Chair, Consumers Health Forum Penny Shakespeare, Acting Deputy Secretary Health Financing Group, Department of Health</p> <p>Facilitated by Virginia Haussegger AM</p>
15:00	<p>Afternoon tea</p> <p>Foyer, ground floor</p>

SESSION C

New and emerging health technologies offer more healthcare options than at any other time in our history. This session explores the importance of clinical and cultural competence, and examines clinical innovations changing practice and healthcare decision making.

Ballroom	
15:30	<p>Keynote address: Clinical and cultural competence in a fast-changing world - 122 Professor Lisa Jackson Pulver, Pro Vice-chancellor Engagement and Pro Vice-chancellor Aboriginal & Torres Strait Islander Leadership, Western Sydney University</p>
15:55	<p>Keynote address: Genomic medicine: preparing Australia for this disruptive technology - 123 Professor John Christodoulou, Theme Director, Genetics Research/Group Leader, Neurodevelopmental Genomics, Murdoch Children’s Research Institute, and Co-Lead, Australian Genomics Health Alliance</p>
16:20	<p>Keynote address: Genomics, personalised medicine and the dangers of overdiagnosis - 124 Dr Ray Moynihan, Senior Research Fellow, Bond University</p>

16:45	Speaker question and answers Facilitated by Virginia Haussegger AM
17:00	Recap from consumer rapporteurs, Melissa Cadzow and Debra Leticia
17:15	Close of day one
19:00	Symposium gala dinner and National Medicinewise Awards
	National Arboretum Canberra, Forest Drive off Tuggeranong Parkway, Weston Creek, ACT Return coach transfers depart from the National Convention Centre at 18:45 and return from 22:30

DAY 2: FRIDAY 1 JUNE

7:30	Registration
	Foyer, National Convention Centre Canberra

SESSION D

Unmissable opportunity to hear from national and international experts about innovations in the world of genomics and personalised medicine. Learn how medicine and healthcare is changing, what these changes mean for clinicians and consumers, and implications for sound healthcare decision making at all levels.

	Ballroom
8:30	Opening of day two
8:40	Keynote address: Systems medicine approaches to the challenges of 21st century personalised and public healthcare - 200 Professor Jeremy Nicholson , Head of the Department, Surgery and Cancer and Director, MRC-NIHR National Phenome Centre, Faculty of Medicine, Imperial College, London
9:30	Keynote address: Convergence of engineering, IT and clinical practice: opportunities and challenges - 201 Professor Iven Mareels , Lab Director, IBM Research, Australia
9:55	Keynote address: Law, ethics and practice... bringing consumers on the personalised medicine journey - 202 Dr Harriet Teare , Deputy Director, Centre for Health, Law and Emerging Technologies, University of Oxford, Research Fellow, Melbourne Law School
10:20	Speaker questions and answers Facilitated by Virginia Haussegger AM
10:30	Morning tea
	Foyer, ground floor

CONCURRENT SESSION 2

An exciting showcase of work from across Australia and beyond. Gain insights into cutting edge research, novel problem-solving, improving utilisation and decision making, and ways the sector navigates this fast changing landscape. Session includes streams on AMR and improving medicines use.

11:00	2.1 Pitch presentations	2.2 Lightning talks – clinical innovations	2.3 Panel discussion	2.4 Improving medicine use	2.5 Antimicrobial resistance (AMR) stream
	Fitzroy room	Torrens room	Derwent room	Swan room	Murray room
	<p>Preventive health: engaging patients with technology - let's develop a patient-controlled preventive health record - 203 Joanne Gross, NPS MedicineWise</p> <p>Prescribing medicines safely during pregnancy: antiepileptic drugs as a test case - 204 Noni Richards, Dr Alesha Smith, School of Pharmacy, University of Otago</p>	<p>A new model of engaging with specialists: acceptability of PBS Practice Review reports for rheumatologists - 209 Dr Andrew Marson, NPS MedicineWise</p> <p>End-of-Life Essentials Professional Education: what do learners tell us they can change in their own clinical practice? - 210 Kim Devery, Flinders University</p> <p>An interdisciplinary model of care in general practice for smoking cessation support, and early detection and management of COPD - 211 Dr Johnson George, Monash University</p> <p>Empowering and educating mental health consumers with a 'snowballing' approach to medicines information provision - 212 Amy Stashynsky, South Western Sydney Local Health District Mental Health Service</p>	<p>Bowraville Solution Brokerage - MNCLHD and consumer empowerment in health care delivery - 217</p> <p>Panellists: Katie Heather, Bowraville Community Preschool David Taylor, Bowraville Central School Tracy Baker, Integrated Primary Care, MNLCHD</p> <p>Facilitated by Luisa Eckhardt, Mid North Coast Local Health District</p>	<p>Individualising deprescribing decisions - A general practitioner-led deprescribing intervention in community-living older people with polypharmacy - 218 Ian Scott, Princess Alexandra Hospital</p> <p>Minimising the functional burden of medications in older inpatients: implementation of the drug burden index - 219 Professor Sarah Hilmer, Royal North Shore Hospital and University of Sydney</p> <p>Insights from a multidisciplinary deprescribing intervention in hospital targeting older patients with Hyperpolypharmacy - 220 Professor Sarah Hilmer, Royal North Shore Hospital and University of Sydney</p> <p>Innovations in computerised decision support in hospitals to reduce inappropriate polypharmacy in older adults - 221 Mai Duong, Royal North Shore Hospital</p>	<p>New approaches to addressing AMR Chair: Dr Sue Phillips, Chief Executive Officer, Therapeutic Guidelines Limited</p> <p>Detect and destroy: new approaches to fight antimicrobial resistance Dr Mark Blaskovich, Centre for Superbug Solutions, University of Queensland</p> <p>Clinical innovation: penicillin hypersensitivity Dr Jason Trubiano, Austin Hospital, Melbourne</p> <p>Clinical innovation: surgical prophylaxis Dr Trisha Peel, The Alfred Hospital, Melbourne</p> <p>Engaging consumers in AMR Kerren Hosking, NPS MedicineWise</p> <p>Stream partner:</p>  

11:45	<p>2.1(a) Lightning Talks - clinical innovations</p> <p>Perceptions of healthcare professionals regarding quality, safety and price of anti-diabetic and anti-hypertensive drugs in Pakistan - 205 Asia Pacific Scholarship Winner Dr Madeeha Malik, Hamdard Institute of Pharmaceutical Sciences, Hamdard University, Pakistan</p> <p>Factors effecting general practitioner decisions to adopt new prescription drugs - 206 Dr Susan Mendez, University of Melbourne</p> <p>Resistance decay in individuals after antibiotic exposure in primary care: a systematic review and meta-analysis - 207 Mina Bakhit, Bond University</p> <p>More fun for more learning: poke-biotic go; an innovative approach to Antibiotic Awareness Week - 208 Aimee Peterson, Wyong Hospital, Central Coast Local Health District</p>	<p>Improving metabolic monitoring of hospitalised patients taking regular antipsychotic medications: the need for local and global interventions - 213 Sarah Dinh, NSW Therapeutic Advisory Group</p> <p>Initiation of antipsychotic medicines in older Australians during hospital admission - 214 Dr Lisa Kalisch Ellett, University of South Australia</p> <p>Denosumab: how can we optimise use? - 215 Angus Thompson, University of Tasmania</p> <p>Using 10% PBS data to investigate medication adherence and its association with the 2014 NPS MedicineWise asthma program in Australia - 216 Jianyun Wu, NPS MedicineWise</p>	<p>Panel discussion continues</p> <p>Bowraville Solution Brokerage - MNCLHD and consumer empowerment in health care delivery - 217</p>	<p>Development of a tool to assess polypharmacy - 222 Nashwa Masnoon, University of South Australia, Royal Adelaide Hospital</p> <p>Use of medicines associated with delirium prior to hospitalisation in older Australians - 223 Gizat Molla Kassie, University of South Australia</p> <p>Same old problem - but substitutes and altered practice: continued overuse of psychotropic medication in residential aged care - 224 Dr Juanita Westbury, Wicking Dementia Centre, University of Tasmania</p> <p>Implementation of the Goal-Directed Medication Review Electronic Decision Support System (G-MEDSS) - 225 Dr Mouna Sawan, University of Sydney</p>	<p>AMR stream continues</p> <p>Stream partner</p>  

12:30	Lunch Clinical innovations poster session (12:45–13:15) Reimagining policies poster session (12:45–13:15) Foyer, ground floor
-------	--

SESSION E

What difference does personal healthcare make in people's lives? Gain unique insights from the lived experience of people in this thought-provoking and inspiring session. The final panel discussion will draw together insights, solutions and ideas and provide delegates with key take-outs and learnings.

Ballroom

13:30	Keynote address: Misdiagnosed, misunderstood, missing out: the journey for many - 226 Susan Morris , Executive Director NSW, Lynch Syndrome Australia
-------	--

14:15	Panel discussion – The future is now... how do we make sure we're ready? Panellists: Professor Jeremy Nicholson , Head of Department, Surgery and Cancer, and Director, MRC-NIHR National Phenome Centre, Faculty of Medicine, Imperial College London Dr Hans-Georg Eichler , Senior Medical Officer, European Medicines Agency Susan Morris , Executive Director NSW, Lynch Syndrome Australia Dr Lynn Weekes , Chief Executive Officer, NPS MedicineWise Dr Harriet Teare , Deputy Director, Centre for Health, Law and Emerging Technologies, University of Oxford, Research Fellow, Melbourne Law School Consumer rapporteurs Facilitated by Virginia Haussegger AM
-------	---

15:15	Wrap-up and close of NMS 2018
-------	--------------------------------------

POSTER SESSIONS

THURSDAY 31 MAY 2018, 12:45 – 13:15

Evolving systems

Foyer, National Convention Centre Canberra

Is there a pharmacist in the house? – 300

Dr Rosemary Allin, Drug and Therapeutics Information Service

Identifying knowledge-practice gaps: the value of formative research in deciding the scope and key messages of a practice guide – 301

Dr Ada Portia Batcagan-Abueg, Agency for Care Effectiveness, Ministry of Health, Singapore

Patient information leaflets: the digital transformation to MyMedicines – 302

Elle Coberger, Canterbury District Health Board

An evolving model of care for a 7-day clinical pharmacy service – 303

Jenny Crane, Royal North Shore Hospital

Treating to death: are we overprescribing chemoprophylaxis for venous thromboembolism in subacute patients? – 304

Erin Dunn, The Prince Charles Hospital

HealthPathways: collaborating nationally to support clinicians locally regarding codeine up scheduling – 305

Sandra Fitzgerald, Hunter New England and Central Coast Primary Health Network (HNECCPHN)

A collaborative approach to improving postnatal analgesia – 306

Sanaz Hashemi-Nezhad, Royal North Shore Hospital

Discharge summaries and medication lists: are we getting any better? – 307

Christopher Hidayat, Westmead Hospital

Providing consumers with the magic pill: consumer information about medicines! – 308

James Humffray, Healthdirect Australia

Problems with medicines use in people with dementia: a narrative review – 309

Dr Lisa M Kalisch Ellett, University of South Australia

Evolving medicines evaluation to support innovation in complex and costly care: the South Australian Medicines Evaluation Panel (SAMEP) experience – 310

Robyn Lambert, SA Health

Implementing, communicating and evaluating the Black Triangle Scheme to increase adverse events reporting for new medicines – 311

Dr Claire Larter, Therapeutic Goods Administration

Medicine-related harms observed in the Safety, Harms and Risk Reduction Project (SHARP) – 312

Dr Sharon Leitch, University of Otago

Towards optimising hospitalised older adults' medications (to home) – 313

Sarita Lo, Kolling Institute

Derivation of a frailty index from routinely collected hospital data – 314

Sarita Lo, Kolling Institute

Attitudes towards deprescribing among older people receiving home nursing support with medication management: a cross-sectional survey – 315

Georgia Major, Bolton Clarke

Inappropriate medication prescribing in oldest old patients admitted to hospital – 316

Prof Elizabeth Manias, Deakin University

Breaking down silos to deliver truly patient-centred care – 317

Mary Mickael, Ward Medication Management

The optimised geriatric assessment is predictive of therapy completion in older people with myelodysplastic syndrome and oligoblastic acute myeloid leukaemia – 318

Dr Angela Molga, Royal Adelaide Hospital

Falls in an older patient with advanced dementia: aligning pharmacological treatment and other interventions with changing goals of care – 319

Dr Millie Nakatsuka, South Adelaide Local Health Network

Sequence symmetry analysis of Pharmaceutical Benefits Scheme data for signal detection in the setting of therapeutic goods regulation in Australia – 320

Dr Neillan Nandapalan, Therapeutic Goods Administration

Improving medication use for people with dementia and the need for a new model of care – 321

Dr Tuan Anh Nguyen, University of South Australia

Do more with less: team-based clinical pharmacy service – 322

Aimee Petersen, Wyong Hospital, Central Coast Local Health District

Development of clinical indicators to improve the management of inappropriate polypharmacy in older hospitalised patients – 323

Judy Raymond, NSW Therapeutic Advisory Group (NSW TAG)

The Before School Check (B4SC): reporting outcomes and referral rates for all New Zealand children – 324

Noni Richards, University of Otago

Reducing variation in cancer treatment and improving patient outcomes: eviQ Cancer Treatments Online (eviQ.org.au) – 325

Julia Shingleton, Cancer Institute NSW

Priority setting in program design – 326

Dr Daniela Solomon, NPS MedicineWise

Symptoms and Medicines: a portal to good-quality Australian palliative care medicines information – 327

Paul Tait, Flinders Medical Centre and Flinders University

Pharmacist Reconciliation Initiative: MedsCheck at End-of-Life (PRIME) – 328

Paul Tait, Flinders Medical Centre and Flinders University

Magnesium deficiency with proton pump inhibitors: is it more common than we thought? – 329

Angus Thompson, University of Tasmania

Can a quick reference guide to antibiotic prescribing assist general practice registrars to prescribe according to Therapeutic Guidelines? – 330

Angus Thompson, University of Tasmania

Clinical implications of suboptimal documentation of adverse reactions to penicillins – 331

Angus Thompson, University of Tasmania

Antibiotic therapy for respiratory tract infections: how does community-initiated treatment differ from guideline recommendations? – 332

Angus Thompson, University of Tasmania

Promoting antimicrobial stewardship in the community: are nurses an untapped resource? – 333

Angus Thompson, University of Tasmania

Aspirin therapy: how well do general practice medication profiles reflect reality? – 334

Angus Thompson, University of Tasmania

Evaluation of nature, documentation and communication of coded adverse drug reactions – 335

Courtney van Vuuren, The Prince Charles Hospital

Intracranial haemorrhage risk associated with novel oral anticoagulants and warfarin: the feasibility of using linked administrative health datasets for regulation – 336

Dr Margaret Wilson, Therapeutic Goods Administration

How green is your pharmacy? – 337

Grace Wong, Western Health

Unblocking barriers to best care for enteral feeding patients – 338

Grace Wong, Western Health

Misfit with ENFit: a case study – 339

Grace Wong, Western Health

POSTER SESSIONS

FRIDAY 1 JUNE 2018, 12:45 – 13:15

Clinical innovations

Foyer, National Convention Centre Canberra

Evaluating the effect of the updated TGA recommendations and the Veterans' MATES program on prescribing of antipsychotics in the elderly – 341

Jemisha Apajee, University of South Australia

Encouraging personalised care to reduce antipsychotic use in dementia – 342

Natalie Blacker, University of South Australia

mumatters: an online tool promoting emotional wellness and early intervention for perinatal depression – 343

Ornella Care, Bupa

The Medication Regimen Simplification Guide in Residential Aged Care (GRACE): helping to make medications simpler – 344

Esa Chen, Monash University

Rational use of medicines for people who are imminently dying – 345

Kim Devery, Flinders University, Paul Tait, Southern Adelaide Palliative Services

NPS MedicineWise educational program on neuropathic pain: is pregabalin appropriately prescribed? – 346

Dr Fadi Gurgis, NPS MedicineWise

Constructing an educational intervention for GP registrars guided by behaviour change theory and evidence – 347

Prof Sarah Hilmer, Royal North Shore Hospital and University of Sydney

Exploring GPs' perspectives of the Practice Review PBS data and feedback – 348

Lutfun Hossain, NPS MedicineWise

Obesity and sugar: a taxing issue – 349

Dr Lina Hua, Central Adelaide Local Health Network

RAPID Study: web-based initiative to collect pharmacovigilance data documenting clinical benefit and safety of medications used in palliative care – 350

Jane Hunt, UTS

Reducing hypnotic use in insomnia management among Australian veterans: results from repeated national interventions – 351

Dr Renly Lim, University of South Australia

Longitudinal impact of the Women's Health Initiative study on hormone and complementary therapy used for menopausal symptoms in Australia – 352

Dr Treasure McGuire, University of Queensland, Mater Health Services, Bond University

Enhanced detection of adverse drug reactions in hospital patients using ICD-10 codes and machine learning models – 353

Dr Christopher McMaster, Austin Health

Clinical innovation through medication education to enhance understanding of safe over-the-counter analgesic use in adolescents – 354

Cameron Press, Griffith University

Consumer risk assessment and safety practices with medicines accumulation and disposal – 355

Dr Sara McMillan, Griffith University

Population data translated to a personalised intervention to reduce opioid use for chronic pain – 356

Dr Anna Moffat, University of South Australia

Awareness and self-efficacy of deprescribing and inappropriate polypharmacy in hospital clinicians post-completion of an online HETI module – 357

Dr Brendan Ng, University of Sydney

Use of potentially inappropriate medications in people with dementia in Vietnam and its associated factors - 358

Dr Tuan Anh Nguyen, University of South Australia

A snapshot of consumer medicine-related questions: an analysis of seven years of Medicines Line data - 359

Nerida Packham, NPS MedicineWise

'I wish I had the answer to that!' Answers to common therapeutic dilemmas in general practice - 360

Prof Debra Rowett, Drug and Therapeutics Information Service

Psychotropic medicines use in Residents and Culture Influencing Clinical Excellence (PRACTICE)© tool: a development and content validation study. - 361

Dr Mouna Sawan, University of Sydney

Bioavailability enhancement using gastroretentive floating drug delivery system - 362

Dr Rajani Shakya, Kathmandu University

'Drugs to avoid' to improve quality use of medicines: how is Australia faring? - 363

Dr Agnes Vitry, University of South Australia

Exploring the quality of anticoagulant prescribing in patients with atrial fibrillation at the St John of God Hospital, NSW - 364

Graeme Wertheimer, University of Notre Dame

Examining health professionals' use and opinions of medicine information leaflets - 365

Amber Young, University of Otago

Are patients receiving the information they want to know about their medicines? - 366

Amber Young, University of Otago

Drug—drug interactions and their harmful effects in hospitalised patients: a systematic review and meta-analysis - 367

Dr Wu Yi Zheng, Australian Institute of Health Innovation, Macquarie University

POSTER SESSIONS

FRIDAY 1 JUNE 2018, 12:45 – 13:15

Reimagining policies

Foyer, National Convention Centre Canberra

Better medicine labels: your medicine, your knowledge – 369

Catherine Brown, Therapeutic Goods Administration

Use of medicines in adults with autism spectrum disorder – 370

Dr Lisa Kalisch Ellett, University of South Australia

How do Australian health consumer organisations manage their relationships with pharmaceutical industry? A cross-sectional study – 371

Edith Lau, University of Sydney

Nurses' attitudes towards drug use in residential aged care facilities (NADIR) – 372

Sarita Lo, Kolling Institute

Early access to life-saving medicines: understanding the priority review and provisional approval pathway – 373

Josephine Maundu, Therapeutic Goods Administration

Does industry-sponsored education foster overdiagnosis and overtreatment of depression, osteoporosis and overactive bladder syndrome? – 374

Dr Barbara Mintzes, University of Sydney

Strengths and weaknesses of pharmaceutical policy in relation to rational and responsible medicines use – 375

Dr Tuan Anh Nguyen, University of South Australia

Euthanasia: the great debate. Some food for thought from a nursing perspective – 376

Rosemary Oates, Tura Beach Medical Centre

Physician attitudes towards accelerated access to medicines – 377

Jessica Pace, University of Sydney

Reimagining policies and standards to improve patient care: finding the hidden smokers – 378

Aimee Petersen, Wyong Hospital, Central Coast Local Health District

Medicines shortages in Australian hospitals: the impact on patient care and progress towards policy change – 379

Johanna de Wever, Jerry Yik, Society of Hospital Pharmacists of Australia

Rescheduling of codeine: campaigning for policy change and preparing the pharmacy workforce – 380

Johanna de Wever, Jerry Yik, Society of Hospital Pharmacists of Australia
