First published 10 May 2017

The article by James R Falconer and Kathryn J Steadman on extemporaneously compounded medicines (Aust Prescr 2017;40:5-8) has been corrected.

In Table 1 classifying simple versus complex compounding, the example given for simple capsules, tablets and powders was incorrect. It should have been boric acid capsules (not ethinylestradiol capsules, which are an example of complex compounding).
