Correction

The safety of commonly used vitamins and minerals [Correction]

Aust Prescr 2021;44:209

First published 5 November 2021

<https://doi.org/10.18773/austprescr.2021.060>

The article on the safety of vitamins and minerals (*Aust Prescr* 2021;44:119-23) has been corrected.

[View corrected article.](#)

In the 'Vitamin A' section of the main text, it incorrectly states that toxicity can occur with regular ingestion of more than 100,000 IU daily. This should read "Vitamin A toxicity can occur with regular ingestion of more than 10,000 IU daily". The information on vitamin A toxicity in Box 1 is correct.
