

## Network with fellow attendees

Throughout the sessions you'll see scheduled networking events. These are a fun and informal way to meet and connect with other attendees the same as you would at a live event.

In these networking events you will be randomly placed into small groups of four with three minutes to mingle and get to know others in the group. At the end of the three minutes you can opt to join another group.

Conversations are kept short to provide you the opportunity to engage in multiple conversations and meet multiple participants.
