

How do I ask the presenter a question?

Type your question into the **Live Q&A box** on the right-hand side of the portal during the session. You can choose to ask a question anonymously, although it is always nice for the speaker to know who they are talking to. For panel discussions, please include the name of the presenter that the question is for.

The session chair will ask the questions and the presenter will respond verbally. Questions will be addressed at the end of each presentation.
