3. What if I am taking other medicines?
4. How do I use CYCLOPHOSPHAMIDE-REACH?
5. What should I know while using CYCLOPHOSPHAMIDE-REACH?
6. Are there any side effects?
7. Product details

1. Why am I using CYCLOPHOSPHAMIDE-REACH?

CYCLOPHOSPHAMIDE-REACH contains the active ingredient cyclophosphamide.

CYCLOPHOSPHAMIDE-REACH belongs to a group of medicines called antineoplastic or cytotoxic medicines. You may also hear of these being called chemotherapy medicines.

CYCLOPHOSPHAMIDE-REACH is used in the treatment of various types of cancer.

It can also be used in some diseases of the immune system, and to prevent rejection of organ transplants.

In cancer, CYCLOPHOSPHAMIDE-REACH works by stopping cancer cells from growing and multiplying. In other conditions, it works by lowering the immune system.

Your doctor may have prescribed CYCLOPHOSPHAMIDE-REACH for another reason. **Ask your doctor if you have any questions about why CYCLOPHOSPHAMIDE-REACH has been prescribed for you.**

CYCLOPHOSPHAMIDE-REACH is often used in combination with other medicines to treat cancer.

2. What should I know before I use CYCLOPHOSPHAMIDE-REACH?

Warnings

Do not use CYCLOPHOSPHAMIDE-REACH if:

- you are allergic to cyclophosphamide, or any of the ingredients listed at the end of this leaflet.
