---

## 1. Why am I using Dytrex?

---

**Dytrex contains active ingredient duloxetine hydrochloride.**

DYTREX belongs to a group of medicines known as Serotonin and Noradrenaline Reuptake Inhibitors (SNRIs). SNRIs are believed to work by their action on serotonin and noradrenaline in the brain.

**DYTREX is used to treat:**

- major depressive disorder (depression)
- diabetic Peripheral Neuropathic Pain (nerve pain caused by diabetes)
- generalized anxiety disorder (excessive worry)

Ask your doctor if you have any questions about why DYTREX has been prescribed for you.

Your doctor may have prescribed DYTREX for another reason.

DYTREX is available only with a doctor's prescription.

DYTREX is not recommended for use in children and adolescents under the age of 18 years.

---

## 2. What should I know before I use Dytrex?

---

### *Warnings*

**Do not use Dytrex if:**

- you are allergic to duloxetine, or any of the ingredients listed at the end of this leaflet.
- Always check the ingredients to make sure you can use this medicine.
