1. Why am I using MOXIMED ?
2. What should I know before I use MOXIMED ?
3. What if I am taking other medicines?
4. How do I use MOXIMED ?
5. What should I know while using MOXIMED ?
6. Are there any side effects?
7. Product details

1. Why am I using MOXIMED ?

MOXIMED tablets contain the active ingredient, moxifloxacin, which is an antibiotic belonging to a group of medicines called quinolones. These antibiotics work by killing the bacteria that are causing your infection.

MOXIMED tablets are used in adults for the treatment of infections of the lungs, airways and sinuses.

MOXIMED tablets will not work against infections caused by viruses such as colds or the flu.

2. WHAT SHOULD I KNOW BEFORE I USE MOXIMED ?

Warnings

Do not use MOXIMED tablets if

- You are allergic to moxifloxacin, or any of the ingredients listed at the end of this leaflet.
- Always check the ingredients to make sure you can use this medicine.
- You are allergic to other medicines belonging to the quinolone family (e.g. ciprofloxacin, norfloxacin, nalidixic acid)

Some of the symptoms of an allergic reaction may include:

- Shortness of breath
- Wheezing or difficulty breathing
- Swelling of the face, lips, tongue or other parts of the body.
- Rash, itching or hives on the skin
