5. What should I know while using PERINDOPRIL ARGININE/AMLODIPINE-WGR?

6. Are there any side effects?

7. Product details

1. Why am I using PERINDOPRIL ARGININE/AMLODIPINE-WGR?

The name of your medicine is PERINDOPRIL ARGININE/AMLODIPINE-WGR.

The medicine contains the active ingredient perindopril arginine. Perindopril belongs to a group of medicines called angiotensin converting enzyme (ACE) inhibitors.

It also contains the active ingredient amlodipine besilate. Amlodipine belongs to a group of medicines called calcium channel blockers. Calcium channel blockers do not change the amount of calcium in your blood or bones.

PERINDOPRIL ARGININE/AMLODIPINE-WGR has been prescribed for you by your doctor to replace the separate tablets of perindopril and amlodipine you were taking. One PERINDOPRIL ARGININE/AMLODIPINE-WGR tablet replaces separate tablets of perindopril and amlodipine.
