4. How do I use ABIRATERONE-TEVA?
5. What should I know while using ABIRATERONE-TEVA?
6. Are there any side effects?
7. Product details

1. Why am I using ABIRATERONE-TEVA?

ABIRATERONE-TEVA contains the active ingredient abiraterone acetate.

ABIRATERONE-TEVA is used to treat prostate cancer that has spread to other parts of the body. It reduces the levels of the sex hormone testosterone.

ABIRATERONE-TEVA is not addictive.

2. What should I know before I use ABIRATERONE-TEVA?

Warnings

Do not use ABIRATERONE-TEVA if:

- you are allergic to **abiraterone acetate**, or any of the ingredients listed at the end of this leaflet.
 - if you are pregnant or maybe potentially pregnant.
 - if you have severe liver failure.
 - if you are being treated with XOFIGO (a radiation therapy). You should not take ABIRATERONE-TEVA if you have moderate or severe liver disease. Your doctor will decide whether ABIRATERONE-TEVA can be used if you have a mild liver problem.
- ABIRATERONE-TEVA may affect your liver. When you are taking ABIRATERONE-TEVA your doctor will check your blood to look for any effects of ABIRATERONE-TEVA on your liver.

Check with your doctor if you:

- have any other medical conditions or problems with your liver, high blood pressure and heart problems, or are pregnant
