These symptoms include needing to rush to the toilet to urinate without warning, needing to urinate frequently, or wetting yourself because you did not get to the toilet in time.

Ask your doctor if you have any questions about why this medicine has been prescribed for you. Your doctor may have prescribed it for another reason.

This medicine is available only with a doctor's prescription.

This medicine is not addictive.

1. Why am I using SOLIFENACIN VIATRIS?

SOLIFENACIN VIATRIS contains the active ingredient solifenacin succinate.

SOLIFENACIN VIATRIS belongs to a group of medicines called anticholinergic medicines. It works by acting on specialised cells to reduce the activity of your bladder and help you control your bladder.

SOLIFENACIN VIATRIS is used to treat the symptoms of overactive bladder.
