3. What if I am taking other medicines?
4. How do I use MELOTIN?
5. What should I know while using MELOTIN?
6. Are there any side effects?
7. Product details

1. Why am I using MELOTIN?

MELOTIN contains the active ingredient melatonin. Melatonin is a naturally occurring hormone produced in the body.

It works by controlling the circadian rhythms and increasing the propensity to sleep.

MELOTIN is used for the short term treatment of primary insomnia characterized by poor quality of sleep in patients who are aged 55 years of age or over
