7. Product details

1. Why am I using VOQUILY?

VOQUILY contains the active ingredient melatonin. Melatonin is naturally occurring hormone produced in the body. It is one of the main hormones that helps you to sleep.

VOQUILY is used for the treatment of a number of conditions.

- **Jet lag** in adults 18 years and older.
- **Sleep Disorders in children and adolescents** aged 6 to 18 years with neurodevelopmental disorders including autism spectrum disorder (ASD) and attention deficit hyperactivity disorder (ADHD)

2. What should I know before I use VOQUILY?

Warnings

Do not use VOQUILY if:

- you are allergic to melatonin, or any of the ingredients listed at the end of this leaflet.

Always check the ingredients to make sure you can use this medicine.

Check with your doctor if you:

- have or had the following medical conditions:
 - an autoimmune disease
 - a seizure disorder such as epilepsy
 - problems with your liver
 - problems with your kidneys
- take any medicines for any other condition.
