2. What should I know before I use SomniCare?
3. What if I am taking other medicines?
4. How do I use SomniCare?
5. What should I know while using SomniCare?
6. Are there any side effects?
7. Product details

1. Why am I using SomniCare?

SomniCare contains the active ingredient Melatonin. The active substance of SomniCare, melatonin, belongs to a group of naturally occurring hormones produced in the body.

Melatonin works by controlling the circadian rhythms and increasing the propensity to sleep.

SomniCare is used to improve sleep quality and morning alertness in patients over 55 years of age with poor quality of sleep.

2. What should I know before I use SomniCare?

Warnings

Do not use SomniCare if:

- you are allergic to Melatonin or any of the ingredients listed at the end of this leaflet.
