#### **1. Why am I using MOUNJARO KwikPen?**

---

**MOUNJARO KwikPen contains the active ingredient tirzepatide.**

MOUNJARO KwikPen is a type of medicine called 'GIP and GLP-1 receptor agonists'. In adults, this medicine is used to help treat diabetes. In adults who are overweight or have obesity, this medicine is used to reduce weight or maintain weight loss.

##### **Type 2 Diabetes**

Diabetes mellitus is a condition in which your pancreas does not produce enough insulin to control your blood sugar (glucose) level.

**In adults with type 2 diabetes, MOUNJARO KwikPen is used to improve blood sugar control.**

MOUNJARO KwikPen may be used alone or in combination with other diabetes medicines to control your blood sugar levels.

##### **Weight Management**

**In adults who are overweight or have obesity, MOUNJARO is used for weight management, including weight loss and weight maintenance.**
