#### **1. Why am I using APOHEALTH NIGHT PAIN RELIEF?**

**APOHEALTH NIGHT PAIN RELIEF contains the active ingredients paracetamol and diphenhydramine hydrochloride.**

Paracetamol is an analgesic which works to stop the pain messages getting through to the brain. It also acts in the brain to reduce fever.

Diphenhydramine hydrochloride is an antihistamine that helps you sleep.

**APOHEALTH NIGHT PAIN RELIEF is used to give temporary relief of pain when associated with sleeping difficulty. It is useful for headache, migraine, backache, arthritis, rheumatic and muscular pain, neuralgia, toothache, and period pain. It reduces fever.**
