Where to find information in this leaflet:

1. Why am I using Noumed Donepezil?
2. What should I know before I use Noumed Donepezil?
3. What if I am taking other medicines?
4. How do I use Noumed Donepezil?
5. What should I know while using Noumed Donepezil?
6. Are there any side effects?
7. Product details

1. Why am I using Noumed Donepezil?

Noumed Donepezil contains the active ingredient donepezil hydrochloride monohydrate. Noumed Donepezil is an acetylcholinesterase inhibitor. They are thought to work by increasing the level of a chemical called acetylcholine in the brain.

Noumed Donepezil is used to treat mild, moderate and severe Alzheimer's disease, also called dementia of the Alzheimer's type. Noumed Donepezil will not cure the disease, but should help your memory and improve your ability to think more clearly.

2. What should I know before I use Noumed Donepezil?

Warnings

Do not use Noumed Donepezil if:

- you are allergic to donepezil hydrochloride, or any of the ingredients listed at the end of this leaflet.
