1. Why am I using Blooms The Chemist Amoxicillin/Clavulanic Acid 875/125 tablets?

Blooms The Chemist Amoxicillin/Clavulanic Acid 875/125 tablets contains two active ingredients. One of these is a penicillin called amoxicillin and the other is clavulanic acid.

Blooms The Chemist Amoxicillin/Clavulanic Acid 875/125 tablets belong to the penicillin group of antibiotics. Blooms The Chemist Amoxicillin/Clavulanic Acid 875/125 tablets works by killing the bacteria that cause these infections. It will not work against infections caused by viruses such as colds or the flu.

Blooms The Chemist Amoxicillin/Clavulanic Acid 875/125 tablets are used for the short term treatment of a wide range of infections in the body caused by bacteria. These infections may affect the chest (bronchitis or pneumonia), bladder (cystitis), sinuses (sinusitis), the ears (otitis media) or the skin.

Your doctor may prescribe Blooms The Chemist Amoxicillin/Clavulanic Acid 875/125 tablets for another use. If you want more information, ask your doctor.

There is no evidence that Blooms The Chemist

Amoxicillin/Clavulanic Acid 875/125 tablets are addictive.
