1. Why am I using APOHEALTH ANTI-INFLAMMATORY PAIN RELIEF RAPID 25?

APOHEALTH ANTI-INFLAMMATORY PAIN RELIEF RAPID 25 contains the active ingredient diclofenac potassium. APOHEALTH ANTI-INFLAMMATORY PAIN RELIEF RAPID 25 belongs to a group of medicines called non-steroidal anti-inflammatory drugs (NSAID). It relieves pain and reduces inflammation (swelling and redness).

It is used for short-term treatment of the following conditions:

- migraine headaches and it may also relieve the accompanying symptoms, such as nausea and vomiting, which you sometimes experience when you have a migraine
- relief of menstrual cramps (period pain)
- short-term treatment (up to 1 week) of other painful conditions where swelling is a problem such as back or joint pain, dental pain, muscle strains or sprains and tendonitis (e.g. tennis elbow).
