1. Why am I using Lacosamide Sandoz?

Lacosamide Sandoz contains the active ingredient lacosamide. Lacosamide Sandoz belong to a group of medicines called antiepileptics. These medicines are thought to work by controlling brain chemicals which send signals to nerves so that seizures do not happen.

Lacosamide Sandoz is used in patients over 4 years in combination with other medicines to control epilepsy. Lacosamide Sandoz tablets are used by itself (in patients over 16 years) to control epilepsy.
