---

### 1. Why am I being treated with Cipla Hydrocortisone?

---

Cipla Hydrocortisone contains the active ingredient hydrocortisone sodium succinate. It belongs to a group of medicines called corticosteroids. Cipla Hydrocortisone acts by reducing inflammation (pain, swelling, redness and heat).

**Cipla Hydrocortisone is an injection. It is used when oral treatment is not possible.** Your doctor has prescribed Cipla

Hydrocortisone for the treatment of one or more of the following:

- certain glandular disorders
- rheumatic disorders
- skin diseases
- allergic conditions
- inflammation of the eyes
- stomach or gut disorders
- respiratory diseases
- blood disorders

---

### 2. What should I know before treatment with Cipla Hydrocortisone?

---

#### Warnings

**Do not use Cipla Hydrocortisone if you:**

- are allergic to hydrocortisone sodium succinate, or any of the ingredients listed at the end of this leaflet.  
Always check the ingredients to make sure you can use this medicine.
- have severe fungal infection.
