5. What should I know while using APOHEALTH Children's Antihistamine Promethazine Hydrochloride 1 mg/1 mL oral liquid?
6. Are there any side effects?

7. Product details

1. Why am I using APOHEALTH Children's Antihistamine Promethazine Hydrochloride 1 mg/1 mL oral liquid?

APOHEALTH Children's Antihistamine Promethazine Hydrochloride 1 mg/1 mL oral liquid contains the active ingredient Promethazine hydrochloride. APOHEALTH Children's Antihistamine Promethazine Hydrochloride 1 mg/1 mL oral liquid is an antihistamine used to treat a number of conditions:

- allergies - allergic contact dermatitis, hives, hayfever, bites and stings
- respiratory symptoms due to allergies - runny nose
- nausea and vomiting - motion sickness
- for short-term use for sedation on the advice of a pharmacist or doctor.

Antihistamines help reduce allergic symptoms by preventing the effects of a substance called histamine. Histamine is produced by the body

in response to foreign substances that the body is allergic to.
