3. What if I am taking other medicines?
4. How do I use CEFACLOR SUN?
5. What should I know while using CEFACLOR SUN?
6. Are there any side effects?
7. Product details

1. Why am I using CEFACLOR SUN?

CEFACLOR SUN contains the active ingredient cefaclor monohydrate. CEFACLOR SUN is in a class of medications called cephalosporin antibiotics which are closely related to penicillins.

CEFACLOR SUN is an antibiotic used to treat infections caused by bacteria in different parts of the body including infections of the:

- ears, nose, throat and tonsils (upper respiratory tract);
- chest and lungs (lower respiratory tract);
- bladder and kidneys (lower urinary tract);
- skin

CEFACLOR SUN works by killing the bacteria causing your infection or by stopping its growth.

CEFACLOR SUN will not work against infections caused by viruses such as colds or the flu.
