

Correction

Lithium therapy and its interactions [Correction]

Aust Prescr 2020;43:141

First published 12 June 2020

<https://doi.org/10.18773/austprescr.2020.041>

There was a sub-editing error in the article on lithium interactions ([Aust Prescr 2020;43:91-3](#)), which has now been corrected. [View corrected article.](#)

In the last sentence of the 'Diuretics' section, the word 'increase' should have read 'alter': Other diuretics such as the osmotic methylxanthine (e.g. theophylline) and loop (e.g. furosemide (frusemide)) and potassium-sparing (e.g. spironolactone) diuretics may also alter lithium concentrations.

Update

Antipsychotic switching tool [Update 2]

Aust Prescr 2020;43:141

<https://doi.org/10.18773/austprescr.2020.036>

The online tool by Nicholas Keks et al has been updated. [View updated tool \(v3\).](#)

The olanzapine oral switches to amisulpride, lurasidone, paliperidone, risperidone and ziprasidone have been updated to include the risk of cholinergic rebound when olanzapine is withdrawn.
